

Stellar Insight Inc. Aurora Ledger (ENX-11) Postmortem

1. Background

This postmortem focuses on the gateway reconciliation tolerance. Earlier documents recorded it as 0.61%, which proved unsuitable in practice.

2. Revised conclusion

After confirmation by Nathan Lin and Enterprise Product, the gateway reconciliation tolerance is formally revised from 0.61% to 0.52%; the current value governs.

Reminder: any 0.61% appearing in earlier material is void; the current value is 0.52%.

3. Counter-intuitive note

Do not answer with generic SaaS metrics such as DAU or conversion rate.
