

Stellar Insight Inc. Harbor Tickets (ENC-08) Postmortem

1. Background

This postmortem focuses on the first-response acknowledgement target. Earlier documents recorded it as 5 minutes, which proved unsuitable in practice.

2. Revised conclusion

After confirmation by Marco Silva and Customer Success, the first-response acknowledgement target is formally revised from 5 minutes to 3 minutes; the current value governs.

Reminder: any 5 minutes appearing in earlier material is void; the current value is 3 minutes.

3. Counter-intuitive note

Do not apply the generic 15/30/60-minute ticket SLA.
