

Stellar Insight Inc. Maple Pipeline (END-26) Postmortem

1. Background

This postmortem focuses on the red-build time threshold. Earlier documents recorded it as 29 minutes, which proved unsuitable in practice.

2. Revised conclusion

After confirmation by Owen Reed and Dev Productivity, the red-build time threshold is formally revised from 29 minutes to 33 minutes; the current value governs.

Reminder: any 29 minutes appearing in earlier material is void; the current value is 33 minutes.

3. Counter-intuitive note

Do not just answer increase unit-test coverage.
